

Midwestern Workshop on Asymptotic Analysis

Indiana University, Bloomington, October 9 - 11th, 2015

The goal of MWAA is to facilitate interactions between mathematicians from the midwestern United States working in approximation theory, mathematical physics, potential theory, complex analysis by bringing them together in an informal way for a two day workshop (preceded by a Friday Colloquium). A major objective is to expose attending graduate students to different areas of analysis.

Speakers

Laurent Baratchart (INRIA, Sophia Antipolis, France)

Turgay Bayraktar (Syracuse University)

Sergey Denisov (University of Wisconsin-Madison)

Purvi Gupta (University of Western Ontario)

Damir Kinzebulatov (McGill University, Montreal)

Yurii Lyubarskii (University of Trondheim, Norway)

Evgenia Mannlikova (University of Trondheim, Norway)

Peter Miller (University of Michigan)

Fedor Nazarov (Kent State University)

Ramon Orive (University La Laguna, Spain)

Alexander Reznikov (Vanderbilt University)

Yuan Zhang (Indiana University-Purdue University Fort Wayne)

Workshop is supported by

National Science Foundation
