

# Midwestern Workshop on Asymptotic Analysis

Indiana University-Purdue University Fort Wayne, October 7 - 9th, 2016

---

The goal of MWAA is to facilitate interactions between mathematicians from the midwestern United States working in approximation theory, mathematical physics, potential theory, complex analysis, and related fields by bringing them together in an informal way for a two day workshop (preceded by a Friday Colloquium). A major objective is to expose attending graduate students to different areas of analysis.

## Speakers

Roza Aceska (Ball State University)

Peter Boyvalenkov (Bulgarian Academy of Sciences)

Sergey Dyachenko (University of Illinois Urbana-Champaign)

Alan Legg (Indiana University-Purdue University Fort Wayne)

Kathryn Lindsey (University of Chicago)

Bingyuan Liu (University of California Riverside)

Erik Lundberg (Florida Atlantic University)

Alexander Rashkovskii (University of Stavanger, Norway)

Yuan Yuan (Syracuse University)

Dmitry Zakharov (Courant Institute of Mathematical Sciences)

Yuan Zhang (Indiana University-Purdue University Fort Wayne)
